

# Are you struggling to afford your prescription medicines? We are here to help.

## DELIVERING HOPE TO MILLIONS OF PATIENTS IN NEED

The Partnership for Prescription Assistance (PPA) helps uninsured and underinsured patients find programs that provide prescription medicines for free or nearly free. Since 2005, PPA has helped connect more than **10 million Americans** to public and private assistance programs.

### HOW CAN PPA HELP?

If you struggle with affordable access to your medicines at the pharmacy, visit [www.pparx.org](http://www.pparx.org) to find patient assistance programs for which you may qualify. PPA member programs offer access to more than 2,500 medicines, including a wide range of generics. PPA is a free online service that's confidential and easy to use.

Sponsored by America's biopharmaceutical research companies, PPA is a free service that helps uninsured and underinsured patients access assistance programs that offer prescription medicines for free or nearly free.

### HOW DOES PPA WORK?

1. Go to [www.pparx.org](http://www.pparx.org).
2. Tell us what prescription medicines you take.
3. Tell us about yourself (age, income, health coverage, etc.).
4. Get your results and decide which patient assistance programs you would like to apply to.
5. Complete the application process.

To find out if you may qualify for assistance, visit [www.pparx.org](http://www.pparx.org).

## ABOUT US

The mission of PPA is to increase awareness of patient assistance programs and boost enrollment of those who are eligible. We offer a single point of access to more than 475 public and private patient assistance programs, including nearly 200 offered by biopharmaceutical companies. We have already helped connect more than 10 million Americans to programs that provide prescription medicines for free or nearly free.
